COMPANY PROFILE

Established in 1993, Rider Glass has secured its position as the foremost one-stop supplier of architectural glass solutions in China. Boasting an extensive product range, we have successfully exported our offerings to over 140 countries across the globe. Moreover, our commitment to quality is evident in the attainment of numerous international certifications for all our manufactured products.

Decorative glass, a specialty of Rider Glass, infuses architectural designs with beauty and character through a diverse array of styles and finishes. We offer customizable decorative glass solutions that are not only aesthetically enhancing but also functionally efficient, making them ideal for applications in windows, doors, and partitions.

Our extensive product range is widely utilized in both household and appliance scenarios, featuring colorful printed glass and acid etched glass produced through various methods to accommodate different cost and quality requirements.

Additionally, we provide art glass with a rich palette of patterns and colors, allowing customers the flexibility to select the perfect glass to meet their specific design and decor needs.
